BACKGROUND

In November 2020, KP Staffing began partnering with a global leader in technology and supply chain services. KP started by staffing only one of the client's DFW locations. When we started, KP was just another of the many staffing agencies they worked with.

Within one year, KP Staffing had become an indispensable partner. Based on our performance, they trusted us to staff for all 3 of their DFW locations. We set ourselves apart from the competition by being more involved and going above and beyond to support this client's operations.
